

Dear Friends and Colleagues,

The twelfth annual international conference of the department of obstetrics and gynecology Ain Shams University is an opportunity to celebrate collaboration between the OGASH and the department.

The participations of OGASH members will make the conference a fruitful and beneficial event. The conference is a way to achieve the main goals of the OGASH.

The ORGANISATION GESTOSIS AFFILIATED AND SPONSORED HOSPITALS (OGASH) was founded on 2003. One of the goals is to support meetings, sponsoring and supporting the arrangement of the high-level Hospital and Ambulatory Reproductive, Feto-Maternal Medicine, Obst/Gyn and Perinatal medical service in different Continents all around the world.

The session will help to work out development and procedure of optimal schemes and standards of treatment working out probation, development and procedure of new treatment -diagnostics technologies in everyday practice.

The session is dedicated to the discussion of the hypertension with pregnancy and its management and the major goals are to:

1. Provide state-of-the-art information on hypertension with pregnancy that is relevant to our patients.
2. Provide a platform for debate and interaction between international experts, local, and regional physicians. The session well provides a forum for exchange of most recent generated scientific information and experience in many related topics.
3. Produce an authoritative consensus statement that will clarify management for physicians.

This annual conference is an outstanding educational opportunity and an excellent contribution to our field. The conference remains an annual popular venue for all obstetricians and gynecologists.

All participants are invited to participate in this groundbreaking event.

Professor M. N. EL-MAHALLAWI

President

12th Annual conference of obstetrics and gynecology
